

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. **WASHINGTON:**

**PRINTED BY GALE & SEATON.**

**1820.**

WAR DEPARTMENT,

JANUARY 19, 1820.

**SIR:** In compliance with the resolution of the honorable the House of Representatives, of the 20th ultimo, requiring the Secretary of War to state to the House, "whether, in pursuance of the act of the 18th of March, 1818, any pensions have been granted, which, for reasons which he will state, ought not to have been granted, and what course has been pursued in relation to such pensions, or those to whom they may have been granted, and the number and names of those who have been placed upon the pension list from each state, under the said law: and, also, the regulations adopted by the War Department, in relation to the examination and admission of claims for pensions under the said act;" I have the honor to transmit a list, containing the name, rank, and line, of every person inscribed on the pension roll, under that act.

The description of persons, whose pensions have been granted improperly, may be comprised in the following classes:—

1st. Those who served in corps which, at first, were considered continental, but which, on full inquiry, proved not to be so. The course pursued, in relation to such cases, has been to drop the names from the rolls. The names of such persons will be found on the list transmitted, with the proper remarks annexed.

2dly. Those who are not in such reduced circumstances in life as to need the assistance of their country for support. In cases where satisfactory proof has been adduced, that the pensioners were not in needy circumstances, their names have been dropped from the rolls. The names of such persons are also on the list, with suitable remarks.

It may be proper here to observe, that, in some cases, where information has been received that the pensioners, or persons applying for pensions, are not in such circumstances as to need assistance, their claims have been suspended. The names of such pensioners are likewise noted on the list.

The accompanying statement, of the amount of funds placed in the hands of each agent of the United States, for paying pensioners, will, so far as is practicable, shew the amount paid in each state, for the year commencing with the 5th of September, 1818, and ending with the 4th of September, 1819, inclusive.

For information, concerning the regulations adopted in regard to the examination of claims under the act, I would respectfully refer you to my letter of the 22d ultimo, to the Chairman of the Committee on Revolutionary Pensions, which was contained in the report to the House of Representatives, on the 28th ultimo.

I have the honor to be,

With great respect,

Your obedient servant,

J. C. CALHOUN.

Hon. H. CLAY,

*Speaker of the House of Representatives.*

Names of Persons placed on the Pension Roll of the United States, under the act of the 18th of March, 1818; shewing the rank and line in which each served; and made in compliance with a resolution of the House of Representatives, of the 20th of December, 1819.
